# Beyond The School Day

**We offer a wide range of After School Clubs and Wrap Around Care to suit the needs of every family in the Highfield and Brookham Community.**

Life for every parent is exceptionally busy which is why we host a number of before and after school sessions to ensure that your child can be cared for at times that suit you.

Alongside our Wrap Around Care we offer a vast programme of After School Clubs. Participating in extracurricular activities at Highfield and Brookham provides children with the opportunity to expand their horizons, explore fresh interests, and discover genuine passions. We actively foster a diverse range of clubs and activities, firmly believing that they enhance and widen educational prospects. Consequently, children cultivate a wide array of interests and skills that will positively impact their lives for years to come.

To foster the development of well-rounded individuals, our clubs at Highfield and Brookham are categorised into four distinct areas, ensuring that students are provided with ample opportunities.

Through these four categories of clubs, we ensure that students have the opportunity to develop into well-rounded individuals, with a diverse set of skills, interests, and a holistic approach to their education.

**Academic:** These clubs provide children with the opportunity to delve deeper into subjects they enjoy, expanding their knowledge and understanding in those areas of interest. By dedicating more time to these subjects, students can enhance their expertise and develop a strong foundation.

**Skill Development:** These clubs focus on fostering independent thinking, problem-solving, and other essential skills crucial for their future. Through engaging activities and challenges, students develop critical thinking abilities, creativity, and resilience.

**Artistic:** Our artistic clubs go beyond the regular curriculum, enabling children to flourish creatively and explore new skills. Whether it's painting, music, drama, or other artistic endeavours, students can express themselves, nurture their talents, and discover new passions.

**Physical:** These clubs empower children to develop advanced skills and engage in sports they love beyond their regular physical education lessons. By participating in these activities, students can improve their physical fitness, teamwork, and sportsmanship while pursuing their passion for a specific sport.
